1000 - Admission of Pupils

Grade placement in Northeast U.S.D. 246 most often will be based upon an examination of the student's previous school record, but may be based on achievement tests administered by our staff.

Secondary enrollees should present a transcript of the record made in the last school attended at the time of enrollment in order to facilitate the enrolling process.

All students are required by state law to show proof that they have received, or are in the process of receiving, immunization against polio, mumps, diphtheria, rubella (German measles), measles (rubella), tetanus, and whooping cough. A tetanus booster is also required every ten years. These immunizations shall be in accordance with the immunization schedules of the Kansas Department of Health and Environment. New students shall have 90 days from the date of enrollment to complete these immunizations or they will be dropped from school until such time as it is satisfactorily completed. This requirement is waived for pupils whose parents present written statements asking for exception for reasons of health or religious beliefs.

1100 - Out of District Students

Northeast High School has the right to accept or deny enrollment to out of district students wishing to enroll at Northeast High School. Upon acceptance the out of district student is expected to be a contributing member to the school. They are expected to maintain satisfactory academic progress and not affect the day to day operation of the school through discipline issues and disruption. Out of district students are on a yearly basis. If at anytime the school feels the student is not meeting these expectations the school will inform the student that at the end of the school year the student will have to return to their home district

1400 - Changing Schedules

Any schedule changes should occur within the first three (3) days of the semester. The administration has the authority to approve any schedule change after those three days. Every student is required to take a full schedule of classes.

1500 - Laboratory Fees

Students are required to pay a flat fee upon enrollment. The fee is \$25. Students on reduced lunch will pay \$15. Students on free lunch will have no fee. This fee helps offset the cost of the elective programs at Northeast High School.

1600 - Workbooks

Workbooks will be required in some classes. Students will be informed of the price of the workbook by the instructor. Workbooks must be paid for before they will be ordered and given to the students.

1700 - Seminar/Viking Time/Viking Rewards Guidelines

Seminar

Seminar will take place between the first and second hours of each day. Students are not assigned to any teacher. All teachers will be in their classroom for students to ask questions or obtain any help needed. This will also be an opportunity for students to get second chance breakfast.

Viking Time

Viking Time will be the final class period of each day. All students are required to take Viking Time unless they have special permission from the Principal. This time is designed to allow students the opportunity to complete class work with the assistance of the Viking Time teacher. With permission students can travel to obtain help from specific teachers. Viking Time will be a Pass/Fail course. The Viking Time teacher will be required to mentor and keep track of their students grades.

Viking Rewards

Students receiving grades of A, B, or C will not be required to attend Viking Time on Wednesday or Thursday. All students receiving a grade of D or F must only work on coursework for those courses in which they are receiving a grade of D or F during Viking Time on Wednesday and Thursday. Grades must be updated by teachers by noon on Mondays. The D and F list will be run at noon on Mondays to determine that weeks Viking Rewards students. Each quarter the D and F list will be run, any student not appearing on the list at that time will be taken on a special Viking Rewards trip. Discipline incidents will also be included to be eligible for the Viking Rewards trip. Any suspension ISS or OSS during the quarter of that trip will make you ineligible. Students who receive 3 or more detentions during the quarter will be ineligible for that quarters Viking Rewards trip. It is the Viking Time teachers responsibility to ensure students are working and getting the appropriate help they need to improve their grades. Any meetings can only be held on

Monday, Tuesday, and Friday or with special permission of the Principal.

ATTENDANCE

2000 - 2999

- 2000 Compulsory School Law
- 2100 Attendance
- 2200 Leaving a Class
- 2300 Leaving the Building
- 2400 Excuses for Appointments or Other Reasons

2000 - Compulsory School Law

K.S.A. Supplement 72-1111. Compulsory school attendance - Every parent, guardian or other person in the State of Kansas having control over or charge of any child who has reached the age of seven (7) years and is under the age of eighteen (18) years, and has not attained a high school diploma or G.E.D. shall require such child to attend continuously each school year (1) public school for the duration of the school term provided for in K.S.A. Supp. 72-1106, as amended, (2) a private, denominational or parochial school taught by a competent instructor for a period of time which is substantially equivalent to the period of time public school is maintained in the school district in which the private, denominational or parochial school is located.

If the child is 16 or 17 years of age, the parent or guardian may allow the child to be exempt from the compulsory attendance requirements after meeting with high school principal and signing a waiver.

Truancy is defined for this policy the same as in K.S.A. 72-1113 as amended and which follows: 1. "Whenever a child is required by law to attend school and such child is not enrolled in a public or non-public school, such a child is a truant"; 2. "Whenever a child is required by law to attend school and such child is inexcusably absent therefrom on either three (3) consecutive days or five (5) or more days in any semester, or seven (7) school days in any school year such child is a truant." A child is inexcusably absent from school if the child is absent therefrom all or a significant part of a day without a valid excuse acceptable to the school employee(s) designated by the Board of Education to have responsibility for the school attendance of such child.

For purposes of this policy, "a significant part of a school day" means "one-half (1/2) or more of the scheduled school day".

For purposes of this policy an "excusable absence" occurs when a pupil misses a significant part of a scheduled school day because of illness, appointments for health care, injury which prevents his attendance,

attendance at another educational activity or on a trip approved by the school principal or other absence the reason for which is acceptable to the principal. "Inexcusable absences" occur when there is no attempt to justify an absence, the reason given is not acceptable to the principal and/or the principal has reason to believe that the excuse offered may not be substantially correct.

2100 - Attendance/Habitual Absenteeism

Good attendance is a necessary part of academic achievement. Students with good attendance generally have better grades, enjoy school more, and establish work ethic habits for future employment. The high school administration and staff strongly support good attendance. There will however be times when students miss school. Students missing school must, on returning, have a written note from parents or guardians stating the reason for the absence. The high school principal will make the final decision on what is an excused absence. Students may then receive an excused absence and be eligible to complete missed work. Students who do not bring a note or do not have a valid reason for being absent will receive an unexcused absence. Students are counted absent when more than ten minutes of class is missed.

Tardies: If tardy to any class, you must check in with the office before entering class. After three unexcused tardies (received the 4th tardy) in a class per semester, a student will receive a 30 minute detention. Each subsequent tardy to that class will result in a 30 minute detention. If a student is tardy 6 times to a class in a semester, they are required to take the final in that class.

2200 - Leaving a Class

No student shall be permitted to leave a class without a pass. Students should not be in the halls during class time. When a student receives a pass, he/she should first report to his/her regular class to sign out in the proper manner. Students should not ask to be excused from class to go to lockers, as lockers should not be opened during class periods. Students are not to leave class to use the vending machines. Students leaving class without permission will make up the time missed during detention.

2300 - Leaving the Building

No student should leave the school grounds after arrival on campus during school hours without permission of the Principal or Vice Principal and permit from parents stating the reason for leaving. A student may not write his/her own excuse. Students shall not be sent on personal errands for teachers during school hours. Students leaving the school grounds will serve the amount of time missed during detention. Any subsequent offense will have the possibility of out of school suspension.

2400 - Excuses for Appointments or Other Reasons

In general, it is the policy of the school to excuse pupils from school for worthwhile reasons and upon the written request of parents. A student may not write his/her own excuse. The principal will need to determine the

importance of the request and shall ultimately decide upon the merits of the case.

If absence from school in individual cases retards the pupil's progress and interferes with his/her school work, then conferences with parents should be held to inform them of these effects on the child's school progress.

Whenever a student is absent from school due to a doctor's appointment, a note from the doctor's office must be brought to the office upon the student return to school. If a note is not turned into the office within 3 days of the absence, the absence will not be excused.

Whenever possible, pupil appointments with dentists or doctors should be scheduled for times which will not conflict with the school day.

- 3200 On-line Learning Opportunities

English (I-IV)	4 units
American History	1 unit
American Government	1 unit
Fine Arts	1 unit
Math: Algebra or Algebra 1A & 1B	3 units

Every student is required to take a full schedule of classes.

****Students taking Biology as freshman are not required to take Physical Science if they take Chemistry during their high school career.***

3100 - Test Out Procedure for Academic Credit

A student may earn credits towards high school graduation by demonstrating mastery of the course standards, benchmarks and indicators through a performance instrument. The standards for designing and passing the performance instrument shall be set sufficiently high to ensure credits earned by such means shall be equivalent to the learning accomplished by students completing the full course.

A written request to "test out" of a class must be submitted prior to the beginning of each year. A student may not request to "test out" of a class in which he or she is currently enrolled or has been enrolled.

The request is to be evaluated within 30 school days by a review committee composed of: a building administrator, a school counselor, a faculty member appointed by the principal and the students' parent(s) or guardian(s).

If the request is approved, the course instructor will have 30 school days to design a performance instrument that reflects mastery of all course standards, benchmarks and indicators. Commercially available instruments may be used if they adequately cover course objectives.

The student has 10 school days in which those designated tasks developed by the teacher and approved by the administration must be performed. The principal, in consultation with the instructor, will determine the setting and the timelines for the administration of the instrument, as well as the criteria for successful completion of those tasks.

Credit for such classes shall be awarded based on the letter grade received on the completed performance assessment. Students will be allowed only one opportunity to "test out" of any particular class. It will not be the responsibility of the school or the instructor to provide instructional and/or review time for the student. However, the standards, benchmarks, and indicators for the course will be made available.

3200 – On-line Learning Opportunities

Application – Students may apply for permission to enroll in an online course for credit. Applications for the next academic term shall be submitted to the principal no later than 45 calendar days before the next academic term begins. The student and student's parents shall be informed of the administrator's decision in writing no later than 15 calendar days before the start of the next academic term.

Students may not enroll in an online course as an alternative to any course offered by the high school, except as:

- an attempt to earn credit for a class already attempted but failed by the student
- to reasonably accommodate a student wishing to accelerate high school graduation and proceed with further post secondary education or training;
- or to resolve a significant scheduling conflict.

Guidelines – The following guidelines shall be used by the administration:

1. Only approved courses shall be posted on student transcripts.
2. Approval of any course shall be based upon the course content and rigor, its length, scope, and its method of assessing knowledge acquired by the student, the qualifications of the instructor and the other appropriate factors.
3. Enrollment in an on-line course will be allowed only if an appropriately certified or licensed teacher is available and willing to supervise the student's participation in the course.
4. Suspended or expelled students may also apply for permission to enroll in on-line course work.
5. The cost of on-line courses shall be borne by the student unless otherwise approved by the Superintendent.

Other Regulations or Guidelines – Approval by the administration shall also be based on Kansas State Department of Education regulations and/or guidelines in effect at the time the student request is made.

***Attending an accredited Virtual School does not fall under these guidelines. Students wishing to enroll in Virtual School must meet with the counselor to enroll.**

3300 – Dual Credit and AP Courses

Northeast High School students attending college classes during the school year will receive both college credit and high school credit. The grade for the class will go on the student's high school transcript and be used to calculate the student's GPA and rank in class. Students will receive .5 high school credits for a 3 credit hour class and 1.0 high school credits for a 5 credit hour class. These courses do incur a charge as you must be enrolled as a college student and pay the required course fee.

Students taking AP Courses will receive high school credit for the course. They may choose to take the AP exam at the end of the course. If they pass this exam they will also be given college credit. There is a possible fee for AP Courses.

3400 – Alternative Credits & Graduation

Northeast U.S.D. 246 may provide instructional programming for identified At Risk students. Students enrolled will be expected to meet all course requirements, counseling sessions, and other criteria as set forth by the student improvement team. Credit earned will be counted toward graduation requirements.

3500 – Credit Recovery

Northeast High School will offer students the opportunity to make up failed credits through an online program. Students will be allowed to enroll in credit recovery for 2 semesters of their 4 year high school career free of charge. If

a student must take credit recovery beyond these 2 semesters there will be a fee of \$20.00 per credit. Credit Recovery will be limited due to the number of licenses that can be purchased. Students who have discipline issues during credit recovery will be given one warning. On the second discipline issue the student will be removed from credit recovery and will no longer be able to take credit recovery for the remainder of their high school career.

3600 - Early Graduation

A student may graduate under the following provisions:

1. The student has completed all graduation requirements as set forth by Northeast U.S.D. 246 and the Kansas State Department of Education.
2. The student has the option to attend commencement exercises or receive the diploma by mail. In either case, the diploma will be issued on or after the formal commencement date.
3. Grades will be tabulated for rank in class and the student cannot qualify for valedictorian or salutatorian.
4. Approval forms must be completed 60 (sixty) school days prior to the end of the semester the student plans early graduation.

3700 Promotion to the Next Class

A student must meet the minimum units required to be promoted to the next class.

1. To be considered a Sophomore you must have passed 7 credits
2. To be considered a Junior you must have passed 14 credits
3. To be considered a Senior you must have passed 21 credits
4. In order for a student to walk at graduation, they must meet all graduation requirements at the time of graduation

If a student does not meet the minimum number of credits passed the school will take the measurements needed to try and get the student caught up. Until the student reaches the required credits, they will not advance to the next class and will not attend meetings or events sponsored by that class.

15. In case of a road emergency, children are to remain in the bus.

After leaving the bus:

1. Cross the road, when necessary, after getting off the bus (at least ten feet in front of the bus) only after looking to be sure that no traffic is approaching from either direction.
2. Help look after the safety and comfort of small children.
3. Be alert to the danger signal from the driver.
4. The driver will not discharge riders at places other than the regular bus stop at the home or school unless by proper authorization from the parents and school officials.

Extra-Curricular Trips

1. The above rider rules and regulations will apply to any trip under school sponsorship.
2. Pupils shall respect the wishes of a competent chaperone appointed by the school.

5300 - Bus Discipline Procedures

NO EATING OR DRINKING OR CHEWING OF GUM ON THE BUS AND NO TOBACCO PRODUCTS OR MEDICATION NOT PRESCRIBED BY A PHYSICIAN.

Bus drivers are encouraged to maintain discipline and assure that the students adhere to these rules in the course of their duties. Verbal warnings to students are appropriate when the driver believes they will be effective in correcting misbehavior.

If the bus driver is not successful in correcting misbehavior through verbal prompts and warnings, the driver should contact the rider's parent(s) to seek assistance in correcting the inappropriate behavior.

At such time that a bus driver believes the infraction is serious in nature or continual warnings to a student are ineffective to bring about compliance, the driver will file the appropriate written notice with the building principal. The appropriate building administrator will take the following disciplinary actions:

Upon receipt of the 2nd written report within a school year from a bus driver concerning a student, that student will lose transportation services for three (3) days.

Upon receipt of the 3rd written report with in a school year from a bus driver concerning a student, that student will lose transportation services for five (5)

days.

Upon receipt of the 4th written report within a school year from a bus driver concerning a student, the student will lose transportation services for the balance of the current semester, subject to an appeal hearing with the superintendent, upon request. Parent(s), student, principal, and the transportation director will be allowed to present evidence and testimony at the hearing.

Should the driver file a report concerning an incident, and that incident occurs en-route to school, that will necessitate loss of transportation services, the parent will be contacted by the Principal. The parent must provide to have their child picked up from school that evening, as the child will be immediately denied transportation services.

Should an incident occur en-route to the student's residence that will necessitate the loss of transportation services, transportation privileges will be extended through the next morning of the next school day, until a written report is filed with the building principal. At that time, the parent will be contacted advising them they must provide to have their child picked up from school that evening, as the child will be immediately denied services.

Should a student's parents be unable to be contacted, and no parent designated emergency contact person is available, or the parents are unable to provide transportation, the student will be provided bus transportation to his/her residence that evening.

The building principal may bypass any of the above steps and adjust, restrict, or suspend a student's bus riding privileges as he/she deems appropriate for the situation after conferring with the parents.

5400 - Special Rules Regarding Riding of School Bus

1. Special permission must be received from the Superintendent, who is the official representative of the Board, before anyone other than the regular riders shall be allowed to ride the respective buses.

2. High school students will not be permitted to leave the bus once they have boarded the bus at the high school building until they have reached their home.

5500 - Administration of Medication

The district will comply with current statutes and regulations as defined by the Legislature, Kansas State Department of Education and the Kansas Department of Health and Environment.

To comply with the Kansas Nurse Practice Act (K.S.A. Chapt. 65, Article 11, Chapter 231, Laws of Kansas 1968 and K.S.A. 1979 Supp. 65-1113 and 65-1124) the following policy is in effect:

A. When at all possible, medications should be given at home rather

than during school attendance hours.

- B. Prescribed medications must be accompanied by a note from the physician and in the original container the medicine came in. We need a note from the parent giving us permission to administer the medication at school. This should include date, name of medication, reason for medication, time of day it is to be given, and anticipated number of days to be provided. There is an available form.
- C. Any over-the-counter medications may be given at school only if needed in order for the student to remain in attendance. This can be determined by conference between parents and school nurse. A parental permission form must accompany the medication, to include date, name of medication, reason for medication, time of day it is to be given, and anticipated number of days to be provided.
- D. Medication may be given by delegated school personnel under the supervision of the school nurse. In accordance with Kansas Department of Health and Environment guidelines, the school will allow self-administration of medication to children and youth, provided the proper authorization is on file with the school.

Please contact the school nurse if you have questions concerning administration of medication in school.

5600 - Illness and Medical Emergencies

In the case of any serious injury or illness, the parent or guardian will be notified as soon as possible.

The Kansas Department of Health and Environment procedures are followed in cases of illness and medical emergencies.

Emergency information is to be completed on school records for every student, with at least two emergency backup telephone numbers included.

At the time of an emergency, the school has the responsibility for:

- a. Initiating the immediate care of the student
- b. Notifying the parent or guardian, or if the parent or guardian cannot be reached follow the directions given on the student's records
- c. In some cases, getting the student under professional care with or without the family's permission.

5700 – Interrogation and Investigations Conducted in School

It shall be the policy of the district that a reasonable cooperative effort be maintained between the school administration and law enforcement agencies. **School administrators and School Resource Officers retain the authority to override these guidelines when, in the reasonable judgment of the administrator or School Resource Officer, different action is needed to address an immediate threat of injury or damage to a person or to property.** Law enforcement officials may be summoned

in order to conduct an investigation of alleged criminal conduct see the school premises or during a school-sponsored activity. They may also be summoned for the purpose of maintaining or restoring order when the presence of such officers is necessary to prevent injury to persons or property. Administrators have the responsibility and the authority to determine when the presence and assistance of law enforcement officers is necessary within their respective jurisdictions. The district's administrators shall at all times act in a manner which protects the rights of students and parents and shall cooperate with law enforcement officials.

School staff members shall be reminded annually of the contents of this policy and rules.

A student who has attained the age of 18 enjoys the responsibility of speaking for himself/herself without the agreement of parent, guardian or representative as to his/her submitting to questioning.

Initiated by School Administrators and Conducted by Administrators

Building principals shall have the authority and duty to conduct investigations and to question students pertaining to infractions of school rules, whether or not the alleged conduct is a violation of criminal law. Any investigation shall be conducted in a manner which minimizes interference with regular education or school activities.

Initiated by School Administrators and Conducted by Law Enforcement Officers

The building principal shall determine when the necessity exists for law enforcement officers to be notified to conduct an investigation of alleged criminal behavior.

The building principal may request that law enforcement officers conduct an investigation and question students who are potential witnesses of such alleged criminal behavior during school hours. A reasonable attempt shall be made to contact the student's parents, guardian or representative prior to questioning by law enforcement officers. Reasonable requests of the parents, guardian or representative shall be observed. Such notifications or attempted notifications to parents, guardian or representative shall be documented by the administrator involved. In the absence of a student's parents, guardian or representative during any questions of such students, the principal or certified school staff person shall be present.

If the investigation has centered on any particular student suspected of any alleged criminal activity, the procedure for taking students into custody shall not interfere with reasonable law enforcement procedures.

Initiated and conducted by Law Enforcement Officers

Only in demonstrated emergency situations shall law enforcement officers be voluntarily permitted to conduct such an investigation during school hours.

The building principal shall require proper identification of law enforcement officials and the probable cause for the interrogation or investigation of a student. If the principal is not satisfied with either the identification or the probable cause, he/she shall not grant the request of such persons and shall attempt to so notify the superintendent and the officer's superior, documenting such action.

The law enforcement officers shall be required to obtain prior approval of the principal before beginning such an interrogation or investigation on school premises. The administrator shall document the circumstances as soon as practicable.

Interrogation of Student During Investigation of Violations of School Rules

In instances where school rules have allegedly been violated, the principal may notify the suspected rule violator(s). When suspension may be a consideration, the suspect student shall be advised orally or in writing of the nature of the alleged offense and of the evidence.

Probable witnesses should be told the nature of the alleged misconduct and the reason to believe that they were witnesses. The principal may have another adult present during questioning of students.

Violations of Criminal Law

During an investigation of violation of school rules, the principal shall attempt to ascertain whether there is sufficient justification to believe that a criminal offense was committed that warrants notification to law enforcement officials.

Information of criminal conduct not related to the schools shall be turned over to law enforcement officials, without additional investigation by school officials. School officials shall request that law enforcement officers advise a student of his/her rights.

Taking a Student Into Custody

Following either interrogation or investigation, students shall not be released to law enforcement authorities voluntarily by school officials unless the student has been placed under arrest.

When students are removed from school for any reason by law enforcement authorities, every reasonable effort will be made to notify the student's parents, guardian or representative immediately. Such effort shall be documented.

When an emergency exists, the principal may summon law enforcement officials to the school to take a student into custody.

If an officer has to place handcuffs on a student, it should be done as discreetly as possible. Reasonable care should be taken to avoid "parading" a student in the hallways or on school grounds. Officers have discretion as to when and where to handcuff a student for the student's safety, the safety of others, and the safety of the officer(s).

When a student has been taken into custody or arrested on school premises without prior notification to the building principal, the school staff present shall require the law enforcement officers to notify the principal of the circumstances as quickly as possible.

Disturbance of School Environment

Law enforcement officers may be requested to assist in controlling disturbances of the school environment.

6000 - Discipline

Since the primary purpose of the school and faculty is to teach young people, and since the primary purpose of the student being in school is to learn, it is necessary that good order or discipline be established. The establishing of good discipline is no problem in a school where the students act in a manner acceptable to our society. Students are expected to cooperate fully with faculty and administration in creating a situation that will lead to the most effective learning. For the most part, a very small group of individuals create disturbance. It is these people who make it necessary to have rules and regulations concerning behavior. It is the hope of the faculty and administration that you are not one of these persons. Good order in the school that can be attained by cooperation rather than compulsion is the most desirable and of the greatest benefit to all concerned. Nevertheless, students should be aware that both the administration and faculty may require good order by compulsion or suspension.

6100 - Suspension

Any student may be sent home (OSS) for misbehavior or sufficient reason by the Principal. Suspension will be for such time as the Principal or Superintendent determines necessary for proper adjustment. A conference between the pupil, his/her parents and school officials may be necessary so that a proper understanding is reached concerning the pupil's continued attendance. Subject to K.S.A. 72-8901 through 72-8906.

6110 - In-School Suspension

An in-school (ISS) suspension may be used as a means to allow a student to maintain his/her school work while on suspension. It is the intention of the in-school suspension to restrict the activity of a student from the general student body. It is hoped the in-school suspension will be used for most major school violations, taking away the attitude that a suspension is a vacation. The Principal has the prerogative of changing an in-school suspension to an out-of-school suspension should circumstances change.

A student in in-school suspension will be isolated from all other students during the school day and will not be allowed to participate in activities outside of school hours or attend and/or participate in activities or assemblies during school hours.

A student will be provided with all subject assignments and work may be made up during all in-school suspensions. A student in in-school suspension will be considered present for attendance purposes and must be supervised by certificated personnel at all times.

6120 Discipline Policy

The following school rules will be enforced:

c. When the Terroristic Threat is made by or involves a student(s) in the junior high or high school, and the Principal determines as a result of the preliminary investigation that the Terroristic Threat involves only a comment made in jest, the Principal shall (I) place the student(s) on in-school suspension for one (1) to three (3) days, and (II) shall hold a conference with the parents or guardians prior to allowing the student(s) to return to classes.

d. Furthermore, the Northeast U.S.D. 246 Board of Education prohibits the use of tobacco products in all district owned buildings and vehicles.

6300 - Drug and Alcohol Policy

The Board of Education and educators of Northeast U.S.D. 246 recognize the illegal use of drugs and alcohol as being detrimental to the positive development of the students. The school's primary role in this area is to educate students concerning the hazards of drug and alcohol use.

All Northeast U.S.D. 246 personnel and students have the responsibility to report to the principal observed use or knowledge of any chemical substance. These chemical substances include any narcotic drug, alcohol, hallucinogenic drug, amphetamine, barbiturate, marijuana, solvent, or narcotic device.

Students shall not unlawfully manufacture, distribute, possess, use, or be under the influence of any chemical substance:

- a. on or adjacent to the school grounds or school property;
- b. off the school grounds at a school activity; or
- c. upon arrival at school or a school function.

If at anytime a student fails to make satisfactory progress in a program, the expulsion will be re-imposed.

(2) Second Offense - A student who violates the terms of the policy for the second time shall be expelled from school for the remainder of the school year and will not be allowed to participate in or attend any school activities during the expulsion.

Students who are suspended or expelled under the terms of this policy will be afforded the due process rights contained in board policies and Kansas statutes, K.S.A. 72-8901, et seq. Nothing in this policy is intended to diminish the ability of the district to take other disciplinary action against the student in accordance with other policies governing student discipline. In the event a student agrees to enter into and complete a drug education or rehabilitation program, the cost of such program will be borne by the student

and his or her parents. Drug and alcohol counseling and rehabilitation programs are available for students of the district. A list of available programs along with names and addresses of contact persons for the program is on file with the board clerk. Parents or students should contact the directors of the programs to determine the cost and length of the program.

A copy of this policy and available counseling and rehabilitation programs will be provided to all students and the parents of all students. Parents of all students will be notified that compliance with this policy is mandatory.

6400 – Searches

- A. Overview. While recognizing that the individual student has a right to some privacy in an atmosphere which encourages growth towards responsible and mature personalities, the District cannot and will not tolerate conduct which violates Federal or State Law or District policies, or otherwise jeopardizes the health, safety and general welfare of the student body, specifically including violations of the “drug free” and “weapons free” school zone. See #5180 Drug and Alcohol Policy in Board of Education Handbook.
- B. Information. The District will endeavor to reduce the use of and experimentation with harmful substances such as tobacco, illicit drugs and alcohol by its students, by educating the students about the dangers of such substances through programs including participation in the Drug Abuse Resistance Education (DARE) Program. Such efforts shall include periodic overviews of current drug use prevention activities and dissemination of information at least annually to advise the students of the existence of these policies and their implementation and enforcement, including the random use of dogs specially trained to detect the presence of illicit drugs or weapons.
- C. Searches by Building Principal. The Building Principal may search any locker at any time the Principal reasonably believes that the locker contains or may contain any matter prohibited from being possessed on/or around school property by Federal or State law or by Board policy. Any such search may be made without prior notice to the student to whom the locker has been assigned and with or without the student being present.
- D. Searches by Third Persons. Any person other than the Building Principal who wishes to search a student’s locker shall report to the Building Principal before proceeding to the locker, and in no event shall such person be permitted to search the student’s locker without the principal’s consent unless such person has a valid search warrant authorizing him to make such search.
- E. Searches by Law Enforcement Officers. The District will endeavor to reasonably cooperate with law enforcement officers in the carrying out of their statutory duties. If a law enforcement officer desiring to search a student’s locker has a warrant for authorizing such a search,

the Building Principal shall immediately take such person to the student's locker and permit the officer to search the locker. The search shall be made in the presence of the Building Principal.

If a law enforcement officer desires to search a student's locker without a warrant, the Building Principal shall ask what facts lead the officer to believe that evidence of a crime will be lost, destroyed or moved if the search and seizure did not take place immediately, before a warrant is obtained. If the information provided by the law enforcement officer gives the Building Principal reasonable suspicion that a crime has been committed, the principal may choose to search the student's locker. If the information does not provide a reasonable suspicion and no warrant is offered, the principal shall report the incident to the superintendent, who may notify the officer's superior of the incident.

- F. Use of Dogs Trained to Search. Law enforcement officers may, when authorized by the Superintendent of Schools, conduct a sweep of all lockers located in the building, on a periodic or random basis, with dogs specially trained to detect the presence of and locate weapons or illicit drugs. As provided above, the student body shall be advised at the beginning of each school year of the likely occurrence of such searches, which may thereafter be conducted without notice to any student, whether or not any student is present.

Upon reasonable suspicion and at the request of the administration, law enforcement officers or licensed private agencies may use trained dogs on school premises to identify student property which may contain illegal or illicit materials and to determine whether materials are present which may threaten the general health, welfare, and safety of students and/or district employees.

- G. Recovery of Prohibited Items. Prohibited items recovered from a student's locker shall remain in the custody of either the Building Principal or the law enforcement officer. If such items are turned over to law enforcement officials the principal shall receive a receipt for the items.

- H. Search of Person. When it has been determined by the Building Principal that there is a reason to believe that a student has in his or her possession an object which can jeopardize the health, welfare or safety of others, that student shall be ordered to report to the Building Principal's office. This determination may be based on any information received by the Building Principal, designated representative or by a member of the faculty or staff. It also may be based on knowledge of the student's disciplinary problems, the student's association with known drug offenders, the student's exhibiting objects associated with drug use or the student's exhibiting such objects as bullets or a knife sheath which could be associated with dangerous weapons. Once in the principal's office, the student shall be advised of the reason why he has been ordered to report to the principal's office. The student shall then be permitted to empty the student's items such as, but not limited to pockets, purses, shoulder bags and briefcases.

Items which the Building Principal believes may be connected with illegal activity may remain in the custody of the Building Principal, unless such items are turned over to law enforcement officials; and if this is done, the principal shall receive a receipt for such item so delivered. If the student refuses to comply with this request, the Building Principal shall notify the student's parents and request that they come to the school at once. The Building Principal shall advise the parents of the immediate situation. If the parents and the student are unable to persuade the student to comply, the parents and the student shall be advised that law enforcement officials will be notified, and the matter turned over to them. If the parents refuse to come to the school or are unable to be notified and the student continues to refuse to cooperate, the Building Principal shall notify law enforcement officials and inform them of the facts. Any further search of the student shall be at the discretion and under the control of the law enforcement officials with a valid warrant. Any search of an individual person or a privately owned vehicle by a law enforcement officer shall be conducted only upon presentation of a properly executed search warrant for that specific student or for that specific vehicle.

Once the Building Principal has relinquished control of the student to the law enforcement officials, the Building Principal shall remain with the student and be present during any search of the student made by law enforcement officials on school property. A written report of each search shall be made by the Building Principal and submitted to the Superintendent. 8100 – Technology Acceptable Use Policy

Access to a variety of technology is available to Northeast students and staff. Our goal in providing this access is to promote educational excellence in the district by facilitating resources, sharing innovations and

communications.

The purpose of this policy is to ensure that use of technology is consistent with our stated mission, goals and objectives. Such technology includes but is not limited to multimedia tools, computer network, and online access. The smooth operation of technology relies upon the proper conduct of the students and staff. The following policies are provided so that students and staff are aware of their responsibilities. If users violate any of these guidelines, they will face either restricted use, or be denied access.

Guidelines

Technology:

1. All copyright laws must be obeyed. Users will respect the legal protection provided by copyright license to programs, books, data, articles, photography, artwork, etc. No plagiarism is allowed.
2. The school assumes no responsibility or liability for any phone charges, line costs or usage fees, nor for any damages a user may suffer.
3. Users are subject to all State and federal laws.
4. Physical or electronic tampering with technology is not permitted.

Computer Network/Internet:

1. Users are responsible for good behavior on the school computer network.
2. Users are expected to abide by generally accepted rules of network etiquette and conduct themselves in a responsible, ethical, and polite manner while online.
3. Users are not permitted to use the system for commercial purposes, political lobbying, or product advertising.
4. Users are not permitted to transmit, receive, submit, or publish any viruses or defamatory, inaccurate, abusive, profane, sexually oriented, threatening, offensive or illegal material. If you happen by accident/mistake, etc. to get into an inappropriate area, let your teacher and Building Technology Coordinator know immediately.
5. Security is a high priority, and one should not attempt to assume computer identity of another person. DO NOT use another's password or give your password to another. Attempts to logon as someone else will result in immediate loss of privileges. If you discover a security problem, notify the Building Technology Coordinator. Do not demonstrate the problem to another student.
6. The Building Technology Coordinator and the Network and System Administrator reserve the right to review files and messages.

7. Student use of chat rooms, streaming media (videos and audio), social networking websites such as myspace, and on-line games are prohibited. Teachers may obtain authorization from the principal for use of these sites as part of their curriculum.

9. Students have a menu of programs appropriate for their class work. Under no circumstances should students attempt to access programs not on their menu or compromise the computer network.
10. Students are not to attempt to access another person's work. They may not copy from, alter, or even just "peek" at another person's file(s).
11. Students may not use the computer lab(s) unless a teacher or paraprofessional is present.
12. Personal (non-school owned) computers are not allowed access to the school network/Internet without permission from the Building Technology Coordinator.

Consequences

Access to technology is a privilege, not a right and as such, entails responsibility. Inappropriate use will result in suspension or cancellation of privileges. The principal will deem what is inappropriate school use.

Depending on the severity of failing to obey these policies, the following disciplinary actions can result:

1. Loss of privileges for a period of two weeks to the remainder of the school year.
2. Having lost privileges, a student who is enrolled in a class that requires technology use will have to make arrangements with their teacher to fulfill their class obligations.

9400 - Special Education Services

Unified School District #246 strives to provide for the educational needs of

all students. Among these are instructional and support services for exceptional students, including handicapped and gifted.

These services are provided to our students through membership in the Southeast Kansas Special Education Cooperative. Through membership in the cooperative we join twelve other districts in providing an appropriate education to all our exceptional children and youth.

Acquisition of these services through a cooperative is necessary due to reasons of small incidence of exceptional children, economy in providing the services and the ability to serve the varying needs of these children.

For information regarding these programs, services, and procedures for referral for comprehensive evaluation for the exceptional child, please call the Board of Education Office or the Director of the Southeast Kansas Interlocal #637, Pittsburg, Kansas 66762, phone 800-381-2749.

NORTHEAST USD 246 STUDENT DRUG TESTING POLICY

Approved by the Northeast USD 246 Board of Education
Effective 2012-2013 School Year

In an effort to protect the health and safety of Northeast USD 246 students from illegal and/or performance-enhancing drug use and abuse or injuries relating from the use of drugs/alcohol, and to set an example for all students, the Northeast USD 246 Board of Education has adopted the "Student Drug Testing Policy" for drug testing of students participating in or attending extracurricular and/or co-curricular activities as well as students parking in the school parking lot. The Board recognizes that all students have certain personal rights of privacy guaranteed by our federal and state constitutions. This policy will not infringe on those rights.

STATEMENT OF PURPOSE AND INTENT

A. It is the intent and desire of the Northeast USD 246 Board of Education, Administration, and staff that every student in Northeast USD 246 refrain from using, possessing, or distributing illegal drugs and/or alcohol, and to help students make good decisions. The actions of this policy relate solely to limiting the opportunity of any student in violation of this policy to participate in or attend extra curricular and/or co-curricular activities. This Policy is intended to supplement and complement all other policies, rules, and

regulations of Northeast USD 246 regarding possession and/or use of illegal drugs and/or alcohol.

B. Participation in or attendance at school sponsored extracurricular and co-curricular activities, as well as parking in the school parking lot is a privilege. Accordingly, students participating in or attending extracurricular and co-curricular activities carry a responsibility to themselves, their fellow students, their parents, and their school to set the highest possible examples of conduct, which includes avoiding the use or possession of illegal drugs and alcohol.

C. The purpose of this policy is to prevent illegal drug use and to create an environment free of illegal drug use and abuse. The sanctions of this policy relate solely to limiting the opportunity of any student in violation of this policy to participate in or attend extracurricular or co-curricular activities. No academic sanction for violation of this policy will occur, except to the extent that a violation of this policy would also constitute a violation of the school's discipline policy. If the school's discipline policy regarding drug/alcohol use is violated, the student will be subject to the penalties of the discipline policy.

D. The purpose of this policy is to educate students as to the serious physical, mental, and emotional harm caused by drug use; alert students with possible drug problems to the potential harms of use; prevent injury, illness, and harm as a result of drug use; and maintain in the school district an environment free of drug use and abuse. Northeast USD 246 has adopted this policy for use by all students participating in or attending extracurricular and co-curricular activities in grades 7-12 and students parking in the school parking lot grades 9-12.

DEFINITIONS

ACTIVITIES—Includes any school sponsored activity in the following three categories: Kansas State High School Activities Associations (KSHSAA) sanctioned activities, competitive activities, and non competitive activities. The activities, by categories, are as follows:

KSHSAA Activities, including but not limited to: Athletics, Choir, Speech and Debate, Cheerleading, Scholars Bowl, and KAY Club.

Co-Curricular Activities: Activities that students participate in outside of the classroom as a result of being enrolled in a school offered class, including but not limited to: FCCLA, National Honor Society, Student Council, Class Leadership, Yearbook, School Sponsored Clubs, and TRL Competitions.

Extracurricular Activities: Activities that take place outside the regular course of study in school, including but not limited to: Baseball, Basketball, Chess Club, Cheerleading, Football, Softball, Track, Volleyball, Weights, Prom, School Sponsored Dances, Reward Based Trips, and Senior Trip.

Parking Privilege Permits: Student privilege to park on school grounds.

DRUG USE TEST- A scientifically substantiated method to test for the presence of illegal drugs, performance-enhancing drugs, or alcohol in a

person's urine, saliva, hair or breath.

ILLEGAL DRUGS- Any substance that an individual may not sell, possess, use, distribute, or purchase under federal or Kansas law. Examples would include, but are not limited to, all scheduled drugs as defined by Kansas law, all prescription drugs obtained without authorization, and all prescribed and over-the-counter drugs being used for an abusive purpose, as well as alcohol.

PREFORMANCE-ENHANCING DRUGS- Includes anabolic steroids and other natural or synthetic substance used to increase muscle mass, strength, endurance, speed, or other athletic ability. Dietary or nutritional supplements such as vitamins, minerals, and proteins that can be lawfully purchased in over-the-counter transactions are not included in the term "performance-enhancing drugs."

POSITIVE RESULT- A toxicology test result that is considered to demonstrate the presence of an illegal or a performance-enhancing drug or the metabolites thereof using the standards customarily established by the testing laboratory administering the drug use test. "Positive" when referring to an alcohol test administered under this policy means a breath analyzer test result that is considered to demonstrate the presence of alcohol.

REASONABLE SUSPICION- Specific personal observations concerning the appearance, speech, or behavior of a participating student, and reasonable inferences drawn from those observations in light of experience, poor performance by a student, group of students or team inconsistent with perceived ability, expectations and teaching/coaching, and information provided by a reliable source based on personal knowledge, shall constitute reasonable suspicion. In the context of performance-enhancing drugs, reasonable suspicion could include unusual increases in size, strength, weight, or other athletic abilities.

RANDOM SELECTION- Random selection can include individual students, groups of students or teams selected for testing based upon an objective random selection process or a rotating schedule. The Northeast USD 246 Board of Education contemplates that a minimum of two (2) middle school students and eight (8) high school students will be subject to drug testing under this policy at various intervals of time, approximately twice each month.

SCHOOL DAYS- Days that school is actually in session in Northeast USD 246.

EDUCATION AND CONSENT

A. The school shall provide a drug policy education for students within one week of the policy implementation. The session will include a detailed explanation of the Northeast USD 246 Student Drug Testing Policy.

B. In addition the Principal will review the policy each year on the first day of school and with any new students upon their arrival to school. In addition, it is recommended that each coach/sponsor conduct a player and parent meeting that will include information about the impact of the drug testing policy on participants. Parental attendance is strongly encouraged at each session. Each student in grades 7-12 will be provided copies of the

Northeast USD 246 Student drug Testing Policy and of the Student Drug Testing Consent Form.

C. Each student who desires to participate in or attend extracurricular and/or co-curricular activities or to park in the school parking lot must return a copy of the Student Drug Testing Consent form, signed and dated by the student and by the student's parent or guardian, to the school office within the first five (5) days of the start of the school year. Transfer students will have five (5) days from their date of enrollment. Failure to turn in the properly signed consent form within the time limits set forth in this policy will keep a student from participating in or attending extracurricular and/or co-curricular activities as well as parking privileges on campus being revoked.

SELECTION FOR TESTING

A student may be subject to drug testing under this policy in any of the following circumstances:

A. Upon request at any time the administration determines there is reasonable suspicion to believe the student has used or is under the influence of illegal or performance-enhancing drugs or alcohol;

B. Upon request by the administration based upon an objective random selection process from among all students in the particular pool of students to be tested;

C. As a member of a recognized club or group of students or team based upon a rotating schedule of similar clubs, groups and teams as determined from time to time by the administration; and

D. Students attending school sponsored extracurricular and/or co-curricular activities may be required to submit to an alcohol breath analyzer test prior to entry to determine the presence of alcohol, or at anytime requested by administration, based upon reasonable suspicion.

PROCEDURE

A. Any drug use test required under this policy will be administered by a professional laboratory chosen by Northeast USD 246, using scientifically validated toxicology methods. The professional laboratory shall be required to have detailed written specifications to assure chain of custody of the specimens, proper laboratory control, and scientific testing.

B. All aspects of the drug-testing program, including the taking of specimens, will be conducted in a manner to safeguard the personal and privacy rights of students to the maximum degree possible. The test specimen shall be obtained in a manner designed to minimize intrusiveness of the procedure. In particular, the specimen must be collected in a restroom or other private facility. The student will empty his or her pockets and remove his or her coat and other excess clothing prior to entering the restroom or other private facility. The principal shall designate a drug laboratory employee or school employee of the same gender as the student to accompany the student to a restroom or other private facility. When collecting a urine sample, the monitor shall not observe the student while the specimen is being produced, but the monitor shall be present outside the stall to listen for the normal sounds of urination in order to guard against tampered specimens and to ensure an accurate chain of custody. If at any time during the testing procedure the monitor has reason to believe or suspect that a student is tampering with the specimen, the monitor may stop the procedure. At this time the monitor will inform the principal, who will then determine if a new sample should be obtained. The monitor will be present to collect the sample along with the student and one other witness.

C. If the initial drug test is positive, the initial test result will then be subject to confirmation by a second test.

D. If the second test confirms the presence of drugs or alcohol, the laboratory will report the results to the designated school representative. The

school will then contact the parents of the student with the results and will solicit information regarding any medications the student may be taking. If needed, the school will contact a certifying scientist at the laboratory regarding any drug interactions. If requested, a medical review officer will review and confirm the results and report the findings to the designated school representative.

E. The principal will contact the superintendent, athletic director, head coach/sponsor, student, and parent/guardian to schedule a conference. At the conference the principal will solicit any explanation of the positive test result. If the student asserts the positive test results are caused by something other than consumption of an illegal drug, performance-enhancing drug, or alcohol, the student will be given the opportunity to present evidence of such to the principal, athletic director, and head coach/sponsor. The school district will rely on the professional opinion of the laboratory that performs the confirmation test in determining whether the positive test result was produced by something other than the consumption of an illegal drug, performance-enhancing drug, or alcohol. The principal, superintendent, athletic director and coach/sponsor will make the decision within three (3) working days.

F. The decision may be appealed in writing to the Northeast USD 246 superintendent within three (3) working days. The superintendent will then make a written decision within three (3) working days. During the time of this appeal, the student will not be eligible to attend, participate in, or compete in extracurricular and/or co-curricular activities or to use the school parking lot.

G. The superintendent's decision may be appealed in writing to the Northeast USD 246 Board of Education within three (3) working days. The superintendent will then make a written decision within three (3) working days. During the time of this appeal, the student will not be eligible to attend, participate in, or compete in extracurricular and/or co-curricular activities, or to use the school parking lot.

H. If a student tests positive for using illegal or performance-enhancing drugs or alcohol, the administration may arrange for appropriate follow up, including but not limited to counseling and additional drug tests, on a weekly or other regular basis. The student may not participate in activities until the initial suspension period, as determined below, has been served and all other follow up has been accomplished. It is the obligation of the student to establish that he or she no longer is using such drugs or alcohol. The student shall take another drug test within two (2) months of the completion of the suspension period, at a date and time designated by the administration, in order to continue to participate in activities. The cost of all follow-up drug tests shall be paid by the student or his or her parent or guardian. Failure to pass or to timely pay the cost of such follow-up test(s) shall result in loss of the privilege to participate in activities.

I. The administration will notify the parent(s) or guardian(s) of students selected for drug testing who do not test positive of such negative drug test results within five (5) days of such test.

VIOLATIONS

Any student who tests positive for use of illegal or performance-enhancing drugs or alcohol under this policy shall be subject to the consequences listed below. Violations under this drug testing policy are cumulative throughout grades 7-12 and do not start over each year.

A. 1st OFFENSE- The student shall be suspended from participation in and attendance at all extracurricular and/or co-curricular activities, including all performances and competitions and use of the school parking lot, for a period of **Forty (40) school days**. During this time it is recommended that the parent or guardian obtain a substance abuse evaluation and education/counseling for the student. If the students and/or parent/ guardian can provide proof of enrollment and regular attendance at a school-approved substance abuse program, the suspension will be reduced to **Twenty (20) school days**.

B. 2nd OFFENSE- The student shall be suspended from participation in and attendance at all extracurricular and/or co-curricular activities, including all performances and competitions and use of the school parking lot, for a period of **One Hundred Eighty (180) school days**. If the student and/or parent/guardian can provide proof of enrollment and regular attendance at a school-approved substance abuse program, the suspension will be reduced to **Ninety (90) School days**.

C. 3rd OFFENSE- The student shall be suspended from participation in and attendance at all extracurricular and/or co-curricular activities, including all performances and competitions and use of the school parking lot, for a period of **Three Hundred Sixty Five (365) school days**. On the 3rd offense there is no possibility of reducing the suspension.

D. SUBSEQUENT OFFENSES- The student shall be suspended from participation in and attendance at all extracurricular and/or co-curricular activities, including all performances and competitions and use of the school parking lot, for the remainder of the student's school career.

SELF REPORTING

A student who has never tested positive under the Northeast USD 246 policy has the option to voluntarily "self-report" the use of an illegal or performance-enhancing drugs or alcohol. Under this self-reporting clause, the student must self-report to the principal prior to being selected for a random or rotating schedule drug test. Any student who self-reports a 1st offense shall have a **Five (5) School day suspension** from all activities. Students cannot self report if they have already tested positive as a 1st offense.

REFUSAL TO SUBMIT TO A DRUG TEST

Any student who refuses to submit to a drug test authorized under this policy shall be considered "**POSITIVE**" for drugs and be subject to appropriate suspension as stated previously in this policy.

TRANSFER STUDENTS

Any student transferring to Northeast USD 246 who wishes to participate in extracurricular and/or co-curricular activities, or wishes to use the school parking facilities, must have a signed "Student Drug Testing Consent Form" on file with the principal's office within five (5) school days of his/her initial enrollment. Additionally, any transfer student who has failed a drug screening in a previous school district enters Northeast USD 246 with a similar record.

DISCLAIMER

The Northeast USD 246 Student Drug Testing Policy does not supersede the student handbooks of Northeast High School or Northeast Junior High School with regard to students found to be in possession of, using, providing, or under the influence of illegal substances or alcohol while on school property or at school activity (home or away). Therefore, a student who violates the policy as set forth in the student handbooks should expect further consequences as deemed appropriate by the building principal.

NORTHEAST USD 246 SOCIAL MEDIA POLICY

Approved by the Northeast USD 246 Board of Education Effective 2014-2015 School Year

Northeast USD 246 recognizes that many of our staff, students, parents and community members are active social media users. As a school district, we are also incorporating social media as part of our communications strategy.

The purpose of this social media policy is to help you to participate online in a respectful, relevant way that protects your reputation and the reputation of Northeast USD 246, and respects the relationship between teachers and students.

For the purposes of this policy, social media includes but is not limited to social networking and media sharing sites such as Facebook, Twitter, LinkedIn, Google+, Flickr, Tumblr, and YouTube. It also includes blogs, comments on web sites, discussion forums and any other activity online in which a person connects or communicates with other users.

The administration reserves the right to monitor, and will monitor, use of Northeast USD 246's computers, email, Facebook, and other social media and networking sites. This policy complements, but does not replace, any policies regarding the use of technology, computers, e-mail and the internet adopted from time to time by the Northeast USD 246 Board of Education.

A. Your Personal Responsibility:

We encourage responsible participation in social networking sites, subject to policies concerning the use of social media during work hours. We ask that you carefully consider the very public forum in which you are participating and expect you to act in a way that properly represents both your professional reputation and that of Northeast USD 246.

Express your ideas and opinions in a respectful manner. Seek to build trust and responsibility in your relationships. Avoid insulting others, including students, staff, parents, our extended school community, or other school districts. Do not use racial slurs, innuendos, obscenities or other inappropriate content. Avoid engaging in or commenting on rumors or unsupported information. Represent Northeast USD 246 and the students and parents you serve in the best light. Your posts and comments should help build and support the school community. You are responsible for what your post and communications that would be deemed inappropriate or actionable if they occurred inside or outside of the classroom do not become acceptable merely because they are made online. Always bear in mind that once posted, you cannot take it back. You shall comply with the following specific guidelines:

1. Use common sense when posting online. While these guidelines are in no way intended to limit or infringe upon your rights under the National Labor Relations Act ("NLRA") to comment upon the workplace, it remains good practice to never post anything that would embarrass you or Northeast USD 246, or would call your professional reputation into question.

2. You are personally responsible for the content you publish online. "Content" includes personal comments, Links, photographs, audio or video, and content created by other users that you choose to share or re-post.

3. Be mindful that any content you publish will be public for a long time. Not only can your content show up in Google and other search engines, but the FTC allows private corporations to store publicly accessible Facebook posts for a period of some seven years to be used in employee background checks made by current or potential employers. Moreover, even posts that are "private" may be subject to discovery in legal actions.

4. You should also be mindful that once posted, a comment cannot be taken back. In most instances deleting content will not make it disappear. Deleted content can still show up in online searches or, with the click of a button, other users can take a screen shot, re-post, or share your content with others. Even if you share your content with a very limited number of people, nothing prohibits your contacts from sharing the information you post.

5. Before you post or share content, ask yourself if you would want to see that content in the newspaper or on the evening news? Would you feel comfortable if your content was read by colleagues, your students, parents, principal, superintendent, or members of the Board of Education? If the answer is "no" then the content is best not shared.

6. Special care should be taken when posting personal photographs. Remember, your social networking site is an extension of your personality and professional reputation. All photographs should be posted with the assumption that they will end up in the public realm.

7. As an employee of Northeast USD 246, content that you post may not include provocative photographs, sexually explicit messages, content showing or promoting the consumption of alcohol or use of drugs, or any activity students are legally prohibited from doing. Remember, even with privacy setting in place, your content could be seen by students or parents or find its way into the public realm.

8. The lines between public and private, personal and professional are blurred in the online world. When you are online, you may be connected to colleagues, students, parents and the school community. Sometimes those connections may be direct and obvious. At other times the connections may be indirect or via mutual connections. You should ensure that content associated with you is consistent with your responsibilities as an employee of Northeast USD 246.

9. Your online behavior should reflect the same standards of honesty, respect, and consideration you apply offline.

10. Protect your privacy. You are responsible for understanding and controlling privacy settings on each social network you use. Always assume default settings will make your profile and any content you share publicly accessible. You should also understand that even with maximum privacy settings in place, content can still find its way in to the public domain.

11. At no time shall you claim to be speaking or issuing opinions on behalf of

Northeast USD 246, unless and except if you specifically are authorized to do so by the Superintendent of Schools. In instances where there could be confusion, you must add a disclaimer stating that views and content are exclusively your own and not representative of Northeast USD 246.

12. While the Northeast USD 246 respects the rights of its employees to exercise their rights under the NLRA, employees should not make any derogatory statements about colleagues or students or other comments that would reflect badly on your professional reputation or the reputation of Northeast USD 246. Notwithstanding the foregoing, you may make comments in the exercise of your rights under the NLRA. You are ultimately responsible for your comments and Northeast USD 246 recommends that you thoughtfully consider your rights and responsibilities prior to posting.

13. Do not post photos or videos that contain identifying information concerning any students without the prior written consent of a parent or guardian of each student involved.

14. Respect the privacy and rights of both colleagues and students. Confidential student or personnel information should not be posted online. You should become familiar with and make sure anything you post will not violate any provision of the Family Educational Rights and Privacy Act.

15. Do not use any school logo or image without the prior written permission of the Superintendent of Schools.

16. Do not create any social media account, blog or website intended to represent Northeast USD 246 without express prior consent of the Superintendent. It is important for us to protect the district's brand, ensure certain brand standards and content guidelines are maintained, and ensure any new accounts fit overall communications and education standards established by Northeast USD 246.

B. Employee-Student Relationships:

Northeast USD 246 recognizes the important role that communication and collaboration between employees and students play in the educational process and experience. Northeast USD 246 further recognizes that the advancement of electronic communication and social media technologies creates greater opportunity for interactions between employees and students, and therefore provides these additional guidelines for your own and our students' protection.

1. Employees are never under any obligation to accept friend or follower requests from any student and shall not, under any circumstances, use personal social media accounts to engage with students or participate in district projects. Northeast USD 246 strongly discourages employees from sending or accepting friend requests from current students or otherwise from participating with current students in emails, Facebook or other social media or networks. You should bear in mind that unless your account has privacy settings correctly configured, everything you post may be publicly accessible to your students whether you are connected to them or not.

2. Employees must exercise great care in connecting with students on any

social media channels. Do not send permission-based friend or follower requests to students, for example Facebook friend request. Use discretion and carefully consider the guidelines provided by Northeast USD 246 before accepting any permission-based friend or follower requests received from students. It is Northeast USD 246's recommendation that if an employee decides to accept friend or follower requests received from students, the employee should accept all such requests, and not selectively limit the employee's interactions to what could be perceived as a few preferred individuals.

3. Any employee-student communications or relationships via social media should be of an appropriate professional nature, have content that is appropriate for both the communications medium and the audience addressed, and must not violate any provisions of the Family Educational Rights and Privacy Act. With each communication, ask yourself if it is something you would feel comfortable being printed in the newspaper, read by parents, colleagues, or members of the Northeast Board of Education. As with content, always assume any communication will end up in the public realm.

4. Employees who are connected to or communicate with students via social media must understand they may be granting those students access to all content in their personal social media profiles and should consider this policy and ensure that students are protected from exposure to inappropriate content or content that might compromise the employee's professional reputation.

5. Employees shall ensure that any relationship and all dialogue with a student is kept professional in its nature and immediately shall report to the superintendent or designee any inappropriate communication received from a student. This is as much for your protection as the students. Any content or communication generated either by you, or by a student, which would be inappropriate in the classroom should also be considered inappropriate when shared via social media.

6. Northeast USD 246 recognizes there may be certain limited exceptions to these guidelines, such as a student being a family member or relative, or in those instances where an employee's interaction with a student is a result of certain extra-curricular activities such as Boy Scouts, Girl Scouts, religious organizations or other similar relationships.

7.
